- Input water temperature: 5-38 °C
- Input water quality: Mains tap water

## General specifications

- Product dimensions: 150\*262\*300 mm
- Water tank capacity: 2.2 L

# Highlights

## Hot water within seconds

The innovative instant heating technology helps to provide hot water within seconds, at the exact temperature you like, bringing out the maximum aroma in your drinks.

## 6 temperature settings

We provide pure-tasting water from ambient to piping hot. Blanching, brewing up, sterilising, cooking. Tea, coffee, spaghetti, baby's bottle. You can do a million things with it.

## 5 volume settings

150 ml, 250 ml, 300 ml, 400 ml, 500 ml and continuous. You can always find the suitable water volume to fill your favourite cups, or even jugs and pots.

## Micro X-Clean filter

Enjoy crisp and pure-tasting water, as well as flavourful hot drinks. Philips Micro X-Clean filter reduces chlorine, limescale, heavy metals and emerging contaminants such as microplastics and PFOA.\*

## Compact size, large capacity

Compact design that fits anywhere at home and at the office. Less refill and easy to keep hydrated with the large 2.2 litre water tank. Detachable water tank design ensures easy filling and cleaning.

## No installation required

The dispenser will start to work as soon as you connect the power and turn it on. No need to plumb in.

## Filter lifetime monitoring

The filter lifetime indicator reminds you to replace the filter on time, to ensure the best filtration performance.

## Plastic bottles saving

Bottled water takes a significant toll on the environment, and it is also costly. Now you never need them again. The water station is always there, providing pure-tasting water on demand.

## Energy saving

The water is heated right at the moment you need, and at exact the volume you choose. No more re-boiled or keeping warm. It saves 70% of heating energy compared to thermopot\*\*\*
